CATTLE.

There was a fair business done in the cattle section yesterday, everything considered. The bulk of the offerings were fair to good butchers cattle, all of which found ready sale at what assemed to be strong prices. Comparisons cannot be made for the reason that no such cattle were sold the previous day. Cudahy is a liberal buyer of good butcher cattle, and the shipper who brings such to this market will stand a good chance of going home with as much net cash for his cattle as he could realize on any other market.
